

Planet Earth

is the laboratory of environmental sciences

www.envri.eu

ENVRI has received funding from the European Community's Seventh Framework Programme (FP7/2007-2013) under grant agreement n° 283465

ENVRI Final Event

8th - 9th October 2014

Amsterdam

7 October - Discussion groups

1. What are the (scientific) challenges of the environmental research infrastructures for the 10 years ahead and what should we start doing now?
2. Many environmental infrastructures have a distributed structure to produce and process data. How to best organize and/or improve the cooperation between distributed entities?
3. The environmental infrastructures often depend on other facilities, such as national facilities or external IT services (developers/providers). What should be done to optimize effective relations?
